

## **Books**

1. Solid State Phase Transformations, Allied Publishers Pvt. Published: Limited, New Delhi (2002).
2. Phase Equilibria in Materials, Allied Publishers Pvt. Limited, New Delhi (2003).
3. Diffusion in Solids. The book has been reviewed by McMillan India Ltd..

## **LIST OF PUBLICATIONS:**

1. Precipitation Hardening in a cupro-nickel alloy containing 1%Si, S.P Gupta, A.A.Johnson, K.Mukherjee and E.A.Imbewbo, Materials science and Engg., 6(1970) 395.
2. Comments on the phase transformations in a TiNi alloy, S.P.Gupta, A.A.Johnson and K.Mukherjee, Journal of Phys. Society of Japan, 31(1970) 605.
3. An Electron microscopic investigation in a Cupro-Nickel alloy containing 1%Si S.P.Gupta and K.Mukherjee, Materials Sci.Engg., 9(1972) 97.
4. Crystal structure and Morphology of precipitate phases associated with the Age hardening in a Cu-30Ni-0.3Be alloy, S.P.Gupta and K.Mukherjee, Mater.Sci.Engg., 10(1972) 43.
5. Martensitic Transformations in Splat Quenched BCC Ag-Al alloys, S.P.Gupta, Journal of Phys. Society of Japan, 32(1972) 1682.
6. Martensitic Transformations in Splat Quenched BCC Ag-Al alloys, S.P.Gupta, Mater. Sci. Engg. 10(1972) 341.
7. The shape memory effect in TiNi alloys, S.P.Gupta, Physica status solidi (a) K(5) (1972).
8. Stacking Modulated structures in B<sub>2</sub> Ti-Ni alloys, S.P.Gupta, A.A.Johnson and K.Mukherjee, Mater.Sci.Engg., 11(1973) 29.
9. Martensitic transformations in near equiatomic Ti-Ni alloys, S.P.Gupta, A.A.Johnson and K.Mukherjee, Mater.Sci.Engg, 11(1973) 43
10. Morphology and Crystallography of Martensite in TiNi alloys, S.P.Gupta and A.A.Johnson, Japan Inst. Metals, 14(1973) No.4.
11. Diffusion controlled solid state phase transformations in Ti-Ni alloys of the Near-Equiatomic composition, S.P.Gupta, A.A.Johnson, and K.Mukherjee, Mater.Sci.Engg. 11(1973) 283.
12. Massive phase transformations in splat quenched BCC Ag-Al alloys, S.P.Gupta, Mater.Sci.Engg. 11(1973) 67.

13. The Transition phase in Near-Equiatomic Ti-Ni alloys, Mater Sci Engg., S. P. Gupta 14(1974) 57.
14. Strain Aging and the Bauschinger Effect in Steel, Speciality conference on Cold Formed Steel structures, Oct 1973, Page 1 with A.A.Johnson and S.P.Kodali.
15. The Fracture mode transition in polycrystalline Mo, A.A.Johnson, S.P.Gupta and S.P.Kodali Materials Sci. Eng. 1975.
16. The effect of cooling rate on the solidification microstructure of Gold-rich Gold-Silicon alloys, R.P.Anantmula, A.A.Johnson, S.P.Gupta, J.Electronic Materials, 4(1975) 445.
17. Grain Refinement in Cu-In alloys, S.P.Gupta, Mater.Sci.Engg., 21(1975) 211.
18. The effect of Pre-Strain on the Bauschinger Effect, S.P.Gupta and S.P.Kodali, Scripta Metall, 10(1976) 111.
19. The Bauschinger Effect in Age-Hardenable Cu-30Ni-1Si alloy, S.P.Gupta and S.P.Kodali, Trans. Japan Inst. Metals., 17(1976) 261.
20. Grain Refinement through Thermal cycling Al-40Zn alloy, S.Krishnamurthy and S.P.Gupta, Mater, Sci.Engg., 30(1977) 155.
21. Mechanical properties of thermally cycled Al-40Zn alloy, S.Krishnamurthy and S.P.Gupta, Mater.Sci.Engg., 30(1977) 166.
22. Kinetics of Discontinuous Coarsening of Cellular precipitate in Fe-Zn alloys, S.P.Gupta and G.T.Parthiban, Z.Metallkunde, 76(1985) 505-511.
23. Persistent slip bands in Underaged Cu-2at%Co single crystals during Fatigue, S.P.Gupta, Materials Science and Engg., 78(1986) 21-31.
24. Discontinuous Coarsening of the Cellular precipitate in a Ni-Sn alloy. S.P.Gupta, Scripta Metallurgica, 20(1986) 1323-1328.
25. Kinetics of Discontinuous Coarsening of Cellular precipitate in a Cu-15wt%In alloy., S.P.Gupta , Acta Metallurgica, 34(1986) 1279-1287.
26. Kinetics of Discontinuous Coarsening of Cellular precipitate in a Cu-2at%Cd alloy, S.P.Gupta, Z. Metallkunde, 77(1986) 472-477.
27. Kinetics of Discontinuous Coarsening of Cellular precipitate in an Al-20at%Zn alloy, V.Suresh and S.P.Gupta, Z. Metallkunde, 77(1986) 529-535.

28. Effect of Thermal cycling on the kinetics of Cellular phase transformations in a Cu-In alloy, S.P.Gupta and B.K.Prasad, *Materials Science and Engg.*, 77(1986) 181-190.
29. Kinetics of Cellular Dissolution in a Cu-In alloy, S.P.Gupta, *Materials Science and Engg.*, 83(1986) 255-267.
30. Kinetics of Discontinuous Coarsening of Cellular precipitate in a Ni-8.5at% Sn alloy, S.P.Gupta, *Z. Metallkunde*, 35(1987) 747-757.
31. Coarsening kinetics of Vanadium Carbide in a High strength – Low Alloy steel, D. Ramakrishna and S.P.Gupta, *Materials Science and Engg.*, 92(1987) 179-191.
32. Discontinuous Coarsening of the cellular precipitate in a Ni – Sn alloy, S.P.Gupta, *Z. Metallkunde*, 78(1987) 663-669.
33. Effect of Thermal cycling on the kinetics of Cellular precipitate in a Cu – In Alloy, S.P.Gupta and B.K.Prasad, *Z. Metallkunde*, 78(1987) 657-662.
34. Kinetics of Cellular Dissolution in an Al – Zn Alloy, R. Nakkabi and S.P. Gupta, *Acta Metall.*, 35(1987) 2157-2165.
35. Kinetics of Ferrite Transformation in HSLA steels, A.Singh, D.Ramakrishna and S.P.Gupta, *Z. Metallkunde*, 79(1988) 180-188.
36. Kinetics of Cellular Dissolution in a Cu – Cd Alloy, R. Nakkalil and S.P.Gupta, *Acta Metall.*, 37(1989) 1903-1911.
37. Kinetics of Cellular precipitation and Discontinuous Coarsening of the cellular precipitate in Cu – Sb Alloys, V.V.Balasubramanian and S.P.Gupta, *Acta Metall.*, 37(1989) 291-301.
38. Kinetics of Discontinuous dissolution in an Fe-20 wt% Zn Alloy, R. Nakkalil and S.P.Gupta, *Z. Metallkunde*, 80(1989) 37-47.
39. Kinetics of Discontinuous Coarsening of Cellular precipitate in a Ni-8 at% In Alloy, S.P.Gupta and R. Nakkabi, *Acta Metall., Mater.*, 38(1990) 1871-1882.
40. Kinetics of Ferrite to Austenite Transformation in a HSLA steel containing Ti and V, S.K.Jayaswal and S.P.Gupta, *Z. Metallkunde*. 83(1992) 809-819.
41. Kinetics of Eutectoid Transformation in a Cu-20.15 at% In Alloy, M.K.Bhatia and S.P.Gupta, *Z. Metallkunde*, 85(1994) 192-198.
42. Cellular precipitation and precipitate coarsening in a Mg-Al alloy, Q.M.Amir and

- S.P.Gupta, Canadian Metall. Quart., 34(1995) 43-50.
43. Kinetics of Discontinuous precipitation and coarsening in Ni-Sn Alloys, S.P.Gupta and S.Singh, Z. Metallkunde, 87(1996) 740-747.
  44. Kinetics of Discontinuous precipitation and Dissolution in Cu-Ag Alloys, S.P.Gupta, Canadian Metall. Quart., 37(1998) 141-159.
  45. Kinetics of Ferrite to Austenite Transformation in a HSLA steel containing Nb, S.P.Gupta and K.Yadav, Z. Metallkunde. 89(1998) 222-229.
  46. Kinetics of Ferrite to Widmanstätten Austenite Transformation in a HSLA steel, S.P.Gupta, Z. Metallkunde. 90(1999) 182-188.
  47. A comparative study of the kinetics of interface Diffusion controlled Transformations in Fe-Zn Alloys, S.P.Gupta, Canadian Metall. Quart., 40(2001) 127-142.
  48. Kinetics of Growth of Intermetallics in a Cu-Sn system, S.P.Gupta and D.Rathor, Z. Metallkunde, 93(2002) 516-522.
  49. Intermetallic compounds in Diffusion couples of Ti with an Al-Si Eutectic Alloy, S.P.Gupta, Material Characterization, 49(2003) 321-330.
  50. Formation of Intermetallics during brazing of Alumina with Fe, Ni and Cr using Ag-30Cu-10Sn filler metal, I.Chakravarty and S.P.Gupta, Materials Characterization, 51(2003) 235-241.
  51. Discontinuous precipitation of a Liquid in Cu-base alloy – Nucleation and Growth Mechanisms, S.P.Gupta, S.K.Gautam and P.S.Babu, Z. Metallkunde, 94(2003) 442-448.
  52. Kinetics of Discontinuous precipitation of a Liquid phase in Cu-Sn alloys. S.K.Gautam and S.P.Gupta, Z. Metallkunde, 94(2003) 1247-1254.
  53. Intermetallic compound formation in the Zr-Al-Si Ternary system, J.K.Jain and S.P.Gupta, Materials Characterization, 49(2003) 139-148.
  54. Formation of intermetallic compounds in the Ni-Al-Si Ternary system, M.Jain and S.P.Gupta, Materials Characterization, 51(2003) 243-257.
  55. Kinetics of Discontinuous precipitation of a Liquid phase in a Cu-7.5 at % Sn alloy, P.S.Babu and S.P.Gupta, Canadian Metall. Quart., 42(2003) 471-481.
  56. Diffusion Induced Grain Boundary Migration in the Cu-Cd system, B.K.Gupta, M.K.Madhuri and S.P.Gupta, Acta Materialia, 51(2003) 4991-5000.
  57. Intermetallic compound formation in the Fe-Al-Si Ternary system, part-I, S.P.Gupta,

- Materials Characterization, 49(2003) 269-291.
58. Intermetallic compound formation in the Fe-Al-Si Ternary system, part-II, T.Maitra and S.P.Gupta, Materials Characterization, 49(2003) 293-311.
  59. Formation of intermetallic compounds in the Cr-Al-Si Ternary system, S.P.Gupta, Materials Characterization, 52(2004) 355-370.
  60. Morphology of discontinuous coarsening in Fe-Zn alloys, G. T. Parthiban and S. P. Gupta, Materials Sci Forum, 3 (1985) 267-272.
  61. Diffusion induced grain boundary migration in the Ni-Zn System, U. Sridevi and S. P. Gupta, Canadian Metallurgical Quarterly, 4(2007) 441-454..
  62. Liquid film migration in a Cu-5 at % Sb alloy, U. Chintababu, V. R. Chary and S. P. Gupta, Canadian Metallurgical Quarterly, 46 (2007) 175-188.
  63. Diffusion induced grain boundary migration in the Cu-Zn system, B. Sivaiah and S. P. Gupta, Accepted for publication in Materials Characterization, 2007.
  64. Diffusion induced grain boundary migration in the Ag-Zn system, V. Chary and S. P. Gupta, Accepted for publication in Materials Characterization, 2007.
  65. The driving force for DIGM in the Ni-Zn system, S. P. Gupta, Submitted for publication in Materials Characterization, 2007.
  66. Liquid film migration in a Cu-2.6 at % Cd alloy, C. K. Yadav and S. P. Gupta, Submitted for publication in Canadian Metallurgical Quarterly, 2007.
  67. Liquid film migration in an Al-Cu alloy, S. P. Gupta, to be submitted for publication.
