Excel Workshop for
Staff of TEQIP Colleges

_____

Date: 24th – 25th June 2014 (2-days)

Time: 9:00 am reporting time on 24th June 2014

Venue: Computer Lab, Shed – 3, IIT Gandhinagar

Target group: Staff members

Register At: www.iitgn.ac.in/kn

Dead line: 20th June 2014

_____

Formulas make Excel smart. Without them, Excel is just a data keeping tool. But by using formulas, you can crunch data, analyze it and get answers to most complex questions. While anyone can use a simple SUM or IF formula, an advanced user of it would be able to seamlessly write & combine formulas like SUMIFS, SUMPRODUCT, INDEX, MATCH, LOOKUP formulas. Apart from knowing the formulas, advanced Excel users know how to debug them, audit them and how to use which formula for which occasion (and they also know few alternatives for any given formula problem). This workshop focuses on how to use excel into a more dynamic and efficient way to help save time by analyzing the data and creating more productive results.
