

A JRF position in the research area of molecular biology and structural biology of proteins.

Principle Investigator: Prof. Vijay Thiruvankatam

Project duration: Minimum One year

We are looking for a highly motivated candidate(s) who would like to work on the protein structural elucidation using X-ray crystallography.

Eligibility Criteria:

1. Candidates should have minimum Master's degree (MSc in chemistry or biology) and GATE qualification.
2. If Bachelor degree, then he/she should have exemplary academic record.
3. Experience in molecular biology lab experiments with hands training in cloning, expression and protein purification.
4. Strong interest to do X-ray crystallography of tetraspanin protein
5. Interest in working with other PhD students and Postdocs in the group.

Candidates should apply via e-mail with the following documents

1. Current CV with the list of publications
2. A two-page summary of any research that's been done by the candidate
3. Two letters of recommendation

Selected candidates will be called for interview/ skype for final selection. The Position will start immediately. Last date for application is on 4 November, 2016.

Any questions & queries can be sent to Prof. Vijay Thiruvankatam to the below email id
