

IIT-GN to host drone-racing league

The Indian Institute of Technology, Gandhinagar, is all set to host Amalthea, the annual tech summit on November 4-5 with the theme of 'Concept to Creation'. It aims to focus on conceptualisation and development of ideas. This year, companies like Drona Aviation will exhibit their DIY drone and Amalthea will also host a drone-racing league with Indian Drone Racing League (IDLR), which is the first and largest drone-racing league in India. The exhibition at Amalthea will allow attendees to understand the technology behind a wide variety of products.
